Please note that these Thai holidays are unavoidable and if they do fall on your time at Camp with us, this may affect certain activities. The most common activity this will affect is teaching and any community projects, please note that if your teaching is affected we will try to provide alternative arrangements.

Here at Camp we always try to keep alternatives as close to the original as possible however this may sometimes move the schedule around slightly.

If you have any issues with this please let us know.

Much love,

The Camp Team
